

Ref. Web Address: [INSERT DOMAIN NAME]

Thank you for contacting Network Solutions.

Your request to modify the domain name registration requires a faxed letter of authorization from the registrant below:

[INSERT REGISTRANT NAME & ADDRESS INFO
EXACTLY AS SHOWN IN DATABASE]

Included below is an example of an acceptable authorization form letter.

The registrant may simply insert the relevant information into this document and then print a copy on company letterhead for forwarding to Network Solutions.

Alternatively, an online tool for completing authorization letters can be found at <http://www.networksolutions.com>. From our home page, choose Find, then select the type of fax authorization letter you need.

Fax the authorization letter to us at (703) 742-9552. Please retain your fax transmission receipt indicating the date and time of the transmission and the number from which the fax was sent.

Best Regards,

Network Solutions Registration Services

=====

NOTE: Complete the following authorization letter and print or copy it onto company letterhead. If the page format does not fit within the margins of the letterhead's design, you may copy and paste the text into your editor software (such as MSWord) and then format accordingly. Or, simply use the form as a guideline to create a duplicate letter. Additional instructions for completing the authorization form are included at the end of this message.
